NO, I shared the agenda with PADEP's SCRO and they just said thanks. I was not aware that we were going to be able to change the agenda after Jenifer sent it to CRW as the final agenda.

Rick, were there any changes after your discussion with PADEP? Can you send it to me?

Hi Karen- DO we have a final agenda for CRW? I don't see it attached to the meeting notice.

CRW is aware that we will be seeing their presentation for the first time. We certainly should ask clarifying questions, and ask them for any of the documentation we might need if this is to be their submission. I agree that the letter may need to be revised based on the meeting. And finally- please have someone share the agenda with DEP. I didn't realize that your folks hadn't yet discussed with DEP.

Jen, I ran this by my folks and, while they fully expected changes to the agenda, they are not sure they will be prepared to answer all the questions and comments – we can defer and get back to them if that's ok with you. Also, in light of the changes, we may have to change the letter again, after the meeting based on what CRW says tomorrow. Finally, we are hearing that the PADEP Central Office feels that they have not been consulted regarding the agenda. Would you want us to reach out to Maria or would you prefer to do that?

Hi Jenifer. Here are the topics that we wish to cover in our powerpoint presentation. There is some overlap with your agenda items.

- State of the Assets Summary
- Cost Data Review
- Topic 1: 85% Capture Analyses and Results
 - Baseline level of control, impervious acres managed, total cost, affordable implementation period
- Topic 2: Cost Benefit Analysis/Affordability Analysis
- Topic 3: Proposed Adaptive Management Process
 - Series of 5-Year Project Lists and Budgets
- Topic 4: Proposed Accountability and Verification Measures
- Next Steps: Call/Meeting

It may take about 45 minutes to get through the powerpoint.

Thanks and looking forward to our call tomorrow.

Hi Charlotte- Please see the draft agenda, that provides CRW with an opportunity to present the newest modeling effort. The second bullet details the goals of the LTCP, which we'd be looking for in the revised effort. Please review and add any items that you would like to discuss.

Thanks

Jen
